*Encyclopedia of Wicca & Witchcraft* Oct 21 2021 Grimassi has written extensively about Wicca, and Llewellyn specializes in books sympathetic to occult ways, so the combination is pretty predictable. He describes not only the usual magic practices, but also the religious and spiritual aspects of what believers say is inherited ancient European wisdom and scoffers say is made-up, new-age nonsense. **Kill the Company** Apr 26 2022 In the ever-changing world of business, we've arrived at a point where process has trumped culture, where the race toward efficiency has left us unable to reach our potential. Stuck in the land of status quo, we've forgotten how to think. The very structures put in place to help businesses grow are now holding us back;; it's time to Kill the Company. This book is a call to arms: to start a revolution in how we think and work. But instead of more one-size-fits-all change initiatives forced upon employees, we need to embrace small changes that create ripple effects throughout the organization. Lisa Bodell urges companies to move from "Zombies, Inc." to "Think, Inc." Thinking can no longer be exclusive to the creative team or lead strategists. A culture of curiosity must be fostered among the ranks to shake up our standard practices, from unproductive meetings to go-nowhere strategic planning. This revolution can and will awaken our ability to think, and ultimately, to innovate and grow.

**Learning in the Museum** May 04 2020 Learning in the Museum examines major issues and shows how research in visitor studies and the philosophy of education can be applied to facilitate a meaningful educational experience in museums. Hein combines a brief history of education in public museums, with a rigorous examination of how the educational theories of Dewey, Piaget, Vygotsky and subsequent theorists relate to learning in the museum. Surveying a wide range of research methods employed in visitor studies is illustrated with examples taken from museums around the world, Hein explores how visitors can best learn from exhibitions which are physically, socially, and intellectually accessible to every single visitor. He shows how museums can adapt to create this kind of environment, to provide what he calls the 'constructivist museum'. Providing essential theoretical analysis for students, this volume also serves as a practical guide for all museum professionals on how to adapt their museums to maximize the educational experience of every visitor.

*Teachings of Tibetan Yoga* Sep 07 2020 The author-translator of this book was born in China of aristocratic parentage some fifty years ago. In early youth he became the disciple of a Buddhist Guru in a part of China near Tibet. His Guru sent him to Tibet to further his training. After eight years in Tibetan monasteries, six of them under one Guru, he went to school in the West to study animal husbandry and bring his knowledge back to Tibet. The Communist victory in China and the Communist invasion of Tibet cut him off from returning. His devotion to Tibetan Buddhism is now expressed by translating into English its hitherto unknown teachings. This Book is an extremely concentrated introduction to the mental, physical, and spiritual exercises of Tibetan Buddhism, emphasizing the practice of Yoga exercises. The key to its understanding is the learning of Dumo—the generating of internal heat in one's body. Dumo's special meaning for Tibetan Yoga flows from the profoundly anti-ascetic and anti-pessimistic doctrine of Tantric Buddhism. The author means precisely what he says when he explains that opposites are also inseparable unities and that the best example of this is that the human body-mind can be made into the body of Buddha. Sexual bliss can become divine bliss. This work will both introduce the reader to the tranquility of yoga and, at the same time, lead him to explorations in the field of erotic mysticism. Richly illustrated throughout.

*The Venture of Islam, Volume 1* Sep 19 2021 The Venture of Islam has been honored as a magisterial work of the mind since its publication in early 1975. In this three-volume study, illustrated with charts and maps, Hodgson traces and interprets the historical development of Islamic civilization from before the birth of Muhammad to the middle of the twentieth century. This work grew out of the famous course on Islamic civilization that Hodgson created and taught for many years at the University of Chicago. "This is a nonpareil work, not only because of its command of its subject but also because it demonstrates how, ideally, history should be written."—The New Yorker Volume 1, The Classical Age of Islam, analyzes the world before Islam, Muhammad's challenge, and the early Muslim state between 625 and 692. Hodgson then discusses the classical civilization of the High Caliphate. The volume also contains a general introduction to the complete work and a foreword by Reuben Smith, who, as Hodgson's colleague and friend, finished the Venture of Islam after the author's death and saw it through to publication.

**A-HA! Performance** Mar 14 2021 Praise for A-HA! Performance "Since I wrote Choice Theory many years ago, I have come to the conclusion that there is only one major human problem: we have yet to figure out how to get along well with each other. In this book, Walker supports this conclusion with humor, creativity, and great insight. Managers who both follow his suggestions and teach them to those they manage will be rewarded with a happy and profitable workplace. And do it at less cost than the company is spending now." --William Glasser, MD, President and founder, William Glasser Institute, and author of Choice Theory and Reality Therapy "If ever there was a title that perfectly matched the content of a book, this is it. I have never experienced more a-ha's from a book in my life. One of the biggest a-ha's is that you don't build a motivated workforce--you already have one! If you manage people--and especially if you aspire to truly lead people--then this book is required reading. Rock-solid ideas from a master on motivation." --Joe Calloway, author of Work Like You're Showing Off! "An amazingly practical and prodigiously useful resource to help create and bolster a world-class sales force, but also a blueprint for better living in general. An absolute mandatory read for all my employees, not to mention friends and family members. I don't know anyone who couldn't benefit from applying the A-HA model. The title might be more apropos if it were 'Holy cow! Where's this been my whole career?'" --Robert H. Fleet, Branch Manager, National Builder Division, Countrywide Home Loans "A-HA! Performance should be mandatory reading for every manager. Each chapter offers simple and compelling methods for building and managing a self-motivated workforce. The realistic examples presented throughout the book reinforce the steps in the A-HA model and provide the foundation for easy application to professional and personal situations." --Ann Owens, Vice President, Total Rewards Management, QUALCOMM "Avoiding a fight-or-flight reaction from an employee who needs coaching on improved performance or behavior changes requires the manager understand the employee's vested interest. Walker teaches the skills required to effectively create three wins: for the company, the employee, and the manager. It's a must-read for all leaders who want to be more proficient in getting needed performance changes from their employees by improving their own nurturing, coaching, or mentoring skills. I'm reading it for the third time and still gleaning more tips and insights. Even though it's constructed as a managerial self-help book, it's really an insightful, powerful textbook, and as such needs to be studied." --Ron Cook, National Accounts Manager, 3M

**An Applied Perspective on Indian Ethics** Aug 31 2022 This book presents a novel interpretation of major problems of Indian ethics from an applied ethical perspective. It approaches prominent theories like Dharma, Karma and Purusarthas from a critical point of view, so as to render them logically consistent and free from some standard limitations. Ethical theories are meant to provide guidance for life, but quite often many of our celebrated theories appear to be inapplicable or difficult to apply in practical life. Indian ethical theories are of special significance to this problem because they have in them rich potentials of applicability as much as many of them typify inapplicable abstract theories of morals. The book incorporates a wealth of research on ethical theories, keeping in view the spirit of ethics and the demands of the situations; for a reasoned balance between the two is the key to applied ethics. The book argues that ethical theories are objective but defeasible in overriding circumstances where competing values deserve preference. Such justified exceptions are warranted by the very spirit of ethics, which is to promote the good life. The argument from defeasibility and justified violation in the book helps bridging the gap between ethics and its application and makes Indian theories of value appear in fresh light- workable, practically applicable and effective as incentives for morality. With uncommon virtue of contemporized presentation of Indian ethics, this book should be of interest to scholars and researchers working on Indian ethics and moral philosophy, as well as to those interested in Indian culture and value tradition.

*No Apocalypse, No Integration* Jan 12 2021 Winner of the Premio Iberoamericano Book Award in 1997 (Spanish Edition) What form does the crisis of modernity take in Latin America when societies are politically demobilized and there is no revolutionary agenda in sight? How does postmodern criticism reflect on enlightenment and utopia in a region marked by incomplete modernization, new waves of privatization, great masses of excluded peoples, and profound sociocultural heterogeneity? In *No Apocalypse, No Integration* Martín Hopenhayn examines the social and philosophical implications of the triumph of neoliberalism and the collapse of leftist and state-sponsored social planning in Latin America. With the failure of utopian movements that promised social change, the rupture of the link between the production of knowledge and practical intervention, and the defeat of modernization and development policy established after World War II, Latin American intellectuals and militants have been left at an impasse without a vital program of action. Hopenhayn analyzes these crises from a theoretical perspective and calls upon Latin American intellectuals to reevaluate their objects of study, their political reality, and their society's cultural production, as well as to seek within their own history the elements for a new collective discourse. Challenging the notion that strict adherence to a single paradigm of action can rescue intellectual and cultural movements, Hopenhayn advocates a course of epistemological pluralism, arguing that such an approach values respect for difference and for cultural and theoretical diversity and heterodoxy. This essay collection will appeal to readers of sociology, public policy, philosophy, cultural theory, and Latin American history and culture, as well as to those with an interest in Latin America's current transition.

The Cosmotheandric Experience Oct 09 2020 The Cosmotheandric Experience is not a Christian, or an Indic, or a Buddhist study, but an interdisciplinary study with a firm foundation. It aims at an integration of the whole of reality: We have to reconstruct the body of Prajapati, even if some of the parts feel unworthy, are shy or run away ... We have to think of all of the fragments of the present world in order to bring them together into a harmonious--though not monolithic--whole. The Cosmotheandric principle, which the author advocates, could be formulated by saying that the divine, the human and the earthly are three irreducible dimensions which constitute the real.
