**You Can't Come to My Birthday Party!** Jun 16 2021 Noting that many teachers and parents are baffled by the repetitiveness of young children's conflict and by their own reaction to it, this book describes how adults can help children find alternatives to hurtful words and fighting by settling differences through a six-step mediation process based on several basic adult-child interaction strategies: listening actively, acknowledging feelings and ideas, and encouraging decision making. This process is explained through stories of actual conflict experiences in which adults and children resolve disputes successfully. Chapters 1 through 4 provide an overview of and a rationale for the problem-solving approach. The six steps to the approach are: (1) approach calmly, stopping any hurtful actions; (2) acknowledge children's feelings; (3) gather information; (4) restate the problem; (5) ask for ideas for solutions and choose one together; and (6) be prepared to give follow-up support. Chapter 5 describes the growth of two young problem solvers during their preschool years. Chapter 6 discusses a small-group discussion process that adults can use at non-conflict times to encourage children to talk over chronic problems. Chapter 7 discusses prevention strategies for reducing the frequency of classroom conflicts. Chapter 8 details the strategies of peer mediation in elementary schools and describes a school-wide mediation structure and group-discussion curriculum. Appended are sample letters and handouts for parents to ease the transition between school and home. (Contains 57 references.) (KB)

**Teaching Conflict Resolution with the Rainbow Kids Program** Mar 26 2022 Based on the view that making social concepts and feelings concrete would help children in primary grades to take turns, cooperate, and solve their problems respectfully, this curriculum uses a story about the Rainbow Kids, an imaginary community of children, to introduce children to social concepts and conflict resolution skills. The Rainbow Kids experience emotions that are conveyed by the weather around them. These simple "sunny" and "cloudy" metaphors turn abstract notions of behavior into physical expressions young children can easily comprehend. Part 1 of the curriculum guide describes the impetus for the program, discusses how the program works, summarizes the story, and details the procedures involved in presenting the program. Part 2 contains the seven lessons and two activities comprising the program; this part includes sample program materials in six appendices, and lists selected resources for elementary school teachers. Part 3 is a separate booklet for students containing "The Rainbow Kids" story. (Contains 15 references.) (KB)

**Children and Marital Conflict** Feb 22 2022 It has long been assumed that family fights have a negative effect on children. Recent findings from research and clinical practice indicate that it is not necessarily the presence of marital conflict that adversely affects children, but, more specifically, how disagreements are handled within the family. Reviewing the now extensive literature on the subject, this volume examines the impact of familial discord on children and presents strategies for clinicians to help parents resolve differences more effectively for the sake of their children, as well as their marriage. Chapters consider the long-term impact of marital discord on children and relate this to what is known about the risk for the development of psychopathology. Reviewing the research on marital interactions in both distressed and nondistressed couples, the authors consider conflict styles of distressed marriages, the bases for marital distress, long-term consequences of marital anger and apathy, and better ways of fighting. The emotional, behavioral, and even physiological impact of interadult and interparental expressions of anger on bystanding children are also examined. Other highlights include: \* Models of different styles of family and marital relations \* Up-to-date research on family processes \* Illustrative case examples \* Descriptions of children's

responses in both laboratory and field studies \* Important, bottom-line prescriptions for therapists, educators, and parents While the review of the scientific evidence on these important questions is exhaustive, the information is presented so that it is accessible to students and parents as well as clinicians, researchers, and academics. This text functions as a resource for clinicians, providing information on clinical processes and outcomes; a guidebook for educators, policy makers, and parents especially in terms of the treatment of issues pertaining to constructive versus destructive methods of dispute; and a scholarly reference for academics and researchers in the child and family areas, offering a state-of-the-art review of current literature.

Raising Happiness May 28 2022 What do we wish most for our children? Next to being healthy, we want them to be happy, of course! Fortunately, a wide array of scientific studies show that happiness is a learned behavior, a muscle we can help our children build and maintain. Drawing on what psychology, sociology, and neuroscience have proven about confidence, gratefulness, and optimism, and using her own chaotic and often hilarious real-world adventures as a mom to demonstrate do's and don'ts in action, Christine Carter, Ph.D, executive director of UC Berkeley's Greater Good Science Center, boils the process down to 10 simple happiness-inducing steps. With great wit, wisdom, and compassion, Carter covers the day-to-day pressure points of parenting—how best to discipline, get kids to school and activities on time, and get dinner on the table—as well as the more elusive issues of helping children build healthy friendships and develop emotional intelligence. In these 10 key steps, she helps you interact confidently and consistently with your kids to foster the skills, habits, and mindsets that will set the stage for positive emotions now and into their adolescence and beyond. Inside you will discover • the best way avoid raising a brat—changing bad habits into good ones • tips on how to change your kids' attitude into gratitude • the trap of trying to be perfect—and how to stay clear of its pitfalls • the right way to praise kids—and why too much of the wrong kind can be just as bad as not enough • the spirit of kindness—how to raise kind, compassionate, and loving children • strategies for inspiring kids to do boring (but necessary) tasks—and become more self-motivated in the process Complete with a series of “try this” tips, secrets, and strategies, *Raising Happiness* is a one-of-a-kind resource that will help you instill joy in your kids—and, in the process, become more joyful yourself.

Israella Mar 14 2021 In my heart, I call to their mothers, 'Take your sons to your houses. Bind them to your chairs; gag them, blindfold them if necessary until they grow calm. Then teach them, for they have forgotten, about peace, about the blessed life, about a future—a present—without pain.' Beneath their prayers, in their morning cups of coffee, beneath their love-making and their child-rearing, and in their sorrow, especially in their sorrow when burying their dead, I hear the simmering of heating souls; I smell the charge of armies, of lives exploding uselessly into smithereens. I sit in mourning over a disaster still to come. In Israel, the lives of three women interweave with the story of their country. Ratiba, an Israeli journalist, turns her back on her heritage to marry an Israeli Arab. Her sister Orit, an actor, lives alone and longs for her lost sister. Elisheva is a nurse who dedicates her life to the wounded and the dying. As their lives unfold, the three women find themselves facing choices they would never have envisioned. This is a story of secrets and alienation, yet also of hope and heroism. It is about Arabs who save Jews from disaster and Jews who heal Arabs. It is the story of everyday people torn and desperately searching for the right path. Here, the ancient pulsates in present time and the biblical holds prominence with the secular. Beneath this modern-day drama unfolds the story of a land and its people, revealing the historical trajectory of two peoples, victims and perpetrators of a biblical

course 'This perceptive, poignant novel offers a fresh and essential outlook on Israel. With memorable characters and an abundance of drama, *Israella* is gripping reading.' – Lou Aronica, New York Times bestselling author

Conflict Resolution in Early Childhood Jan 24 2022 For courses in the Guidance and Management of Young Children. This text examines the nature of conflict among 2- to 8-year-olds from a research-based, constructivist/ecological perspective - integrating themes of caring, building classroom community, connecting curriculum, involving family and community, and responding to the current educational climate. The author thoroughly discusses children's conflicts, emphasizing that peer and community culture make up the foundation for preventing and resolving conflict, and advocates teaching conflict resolution skills via a "three-layer-cake" of understanding, management, and resolution. Coverage presents ways to create a caring classroom - both in physical environment and curriculum, to work with other adults in a child's life, and to implement peer mediation. Throughout, the material stresses the need to understand all children in light of applicable theory and current "best practice" in culturally responsive and inclusive classrooms.
