Redeemed: Leader Guide Dec 11 2020 This is the leader guide to Redeemed: Seeing the Messiah in the Book of Ruth. This guide has everything a leader needs! From tips on how start each session to riveting discussion questions, this leader guide makes leading a Sunday School class, small group, or home study easier than ever. Covers all 6 sessions! Is your life not turning out as you had hoped? Has God disappointed you? The trials of life test us to see if we will trust in the promises of God. On the surface, the book of Ruth would appear to be about love and friendship, and that certainly is a theme. However, more profoundly it is the story of people of Israel and the need for a Redeemer. In the same way, God desires to redeem your past and restore your future, so that you may find fulfillment in His gracious love! In these six sessions of Redeemed: Seeing Christ in the Book of Ruth DVD, you'll learn: • The historical background to the book of Ruth. • What marriage, widowhood, and redemption meant in Bible times. • How Ruth, a destitute foreigner, becomes an ancestor of Jesus Christ. • How Naomi moves from bitterness to blessedness. • How Boaz as a kinsmen-redeemer points to our ultimate redeemer—Jesus Christ. Enjoy fantastic section-by-section commentary and insights into the historical and biblical background of Israel at that time, such as- • Naomi had a social status lower than a servant once her husband and sons died. • Ruth took home more than 10 times the average salary of harvesters when she worked in Boaz's field. • When Ruth asked Boaz to "spread the corner of his garment" over her, she is asking him to make a symbolic gesture for marriage (plus you will find out how this particular act points to our redemption and covenant with Christ).

Fireweed Evangelism Apr 14 2021 Fireweed, always the first flower to spring up and bloom in ruins and burned-over places, is Elizabeth Geitz's metaphor for evangelism that comes from the heart. It is the motivation that makes some Christians eager to welcome the stranger and invite people into their churches, while others hang back. In this prequel to Entertaining Angels: Hospitality Programs for the Caring Church, Geitz explores this missing ingredient in Christian hospitality, reminding us that in a multi-faith world where Christians wish to honor the validity of other religious paths, we may hesitate to talk about the uniqueness of Jesus Christ. Her book helps both individuals and communities to understand what holds them back from evangelism and discover the path that is right for them. This book unfolds in three sections. In the first we look at the factors that inhibit our evangelism, including the awareness that we live in a pluralistic world and do not wish to offend those with other faith commitments. Geitz offers both reflection and exercises to help us discover our own motivation for evangelism. Part 2 addresses the question of context. Where does evangelism take place, and for whose benefit? To what sort of communities do we invite those to whom we reach out? Section 3 focuses on the uniqueness of Christian hospitality and describes the nuts and bolts of newcomer ministry and the programs needed to sustain Christian hospitality in a pluralistic society. It includes workshop and group process material.

Bloomsbury CPD Library: Mentoring and Coaching May 28 2022 Mentoring and coaching are positive and encouraging ways for schools to manage staff performance and leadership development, but turning to outside bodies for training and expertise can be expensive and time-consuming. Internally equipping staff with the skills to coach others is a fantastic way to overcome this boundary and, over time, these highly transferable skills will further teachers' professional development and help them realise their career ambitions. In Bloomsbury CPD Library: Mentoring and Coaching, Marcella McCarthy draws on her experiences as a school leader to explain different theories of coaching and mentoring, examine research and demonstrate its advantages in various situations, so as to guide you step-by-step through practical methods of coaching and mentoring that can be easily implemented in your own school. There are example scenarios to tackle that will prepare you for a multitude of real-life situations and the easy-to-understand, concise methods of self-evaluation help ensure that mentors track their development and continuously improve their approach. The book provides a set of ready-to-use training plans to help you develop mentoring and coaching across your school and is accompanied by PowerPoint slides and resources available to download online for free. It offers 14 hours of CPD, equating to a cost of just £1.65 per hour of training!

Bloomsbury CPD Library: Raising Attainment in the Primary Classroom Oct 01 2022 Bloomsbury CPD Library: Raising Attainment in the Primary Classroom is a complete guide for primary teachers to assess, plan and excel in raising the attainment of every child. Children begin school with considerable differences in their literacy and maths skills. For some children, this gap widens as they go through school and may never close, leaving them without the basic levels required to succeed at secondary school. Experts Sonia Blandford and Catherine Knowles set out to help you understand the theory underpinning aspiration, access and achievement, and what you can do to close the achievement gap in your school. Bloomsbury CPD Library: Raising Attainment in the Primary Classroom specifically focuses on increasing access and raising aspirations of pupils as a means to improving attainment. This easy-to-follow title in the Bloomsbury CPD Library uses self-evaluation tasks and a full set of helpful, ready-to-use training plans for hours of CPD sessions so you can offer your colleagues effective training in this crucial area to ensure every child in your school fulfils their potential. It is a full guide to raising attainment in the primary classroom that is split into two sections: teach yourself and train others. All hand-outs and presentations are provided in the book and are available as a free download from the companion website.

University Teaching May 04 2020 Syracuse University was one of the first major universities to develop a summer internship program to train the hundreds of new teaching assistants appointed each year. An outgrowth of that program, this book contains essays that represent a thoughtful effort by experienced teachers--many of whom have been involved with the national Preparing Future Faculty program--to explore various ways of engaging, encouraging, and stimulating students to learn. Topics cover lecturing, leading discussions, designing laboratory and studio courses, reaching for diversity, using technology, assessing students learning, and service learning.

The Science and Practice of Wellness: Interventions for Happiness, Enthusiasm, Resilience, and Optimism (HERO) Mar 26 2022 A dynamic approach to mental health and wellness, ready for any clinician to implement. Wellness is rapidly becoming an issue of great importance in clinical practice. Wellness-centric clinicians look to improve various traits known to be beneficial to patients— traits such as happiness, enthusiasm, resilience, and optimism (referred to as the HERO traits). All of these not only improve global mental wellness, but also offer resilience against stress, depression, and anxiety. Wellness-centric interventions augment both psychopharmacology and traditional psychotherapies, such as CBT. Rakesh and Saundra Jain start with an in- depth review of the scientific literature and a practical introduction on applying wellness interventions in various clinical settings. Additionally, they offer advice on such beneficial practices as exercise, mindfulness, optimized nutrition, optimized sleep, enhanced socialization, and positive psychology enhancement. A robust resource section offers access to wellness-centric scales and forms developed by the authors.

<u>Intelligence and Security Informatics</u> Jun 24 2019 The past two years have seen signi?cant interest and progress made in national and homeland security research in the areas of information technologies, orga- zational studies, and security-related public policy. Like medical and biological research, which is facing signi?cant information overload and yet also trem- dous opportunities for new innovation, the communities of law enforcement, criminal analysis, and intelligence are facing the same challenge. As medical - formatics and bioinformatics have become major ?elds of study, the science of "intelligence and security informatics" is now emerging and attracting interest from academic researchers in related ?elds as well as practitioners from both government agencies and industry. Broadly de?ned, intelligence and security informatics is the study of the - velopmentanduseofadvancedinformationtechnologiesandsystemsfornational and homeland security related applications, through an integrated technological, organizational, and policy based approach. The First Symposium on Intelligence and Security Informatics (ISI2003) was held in June 2003 in Tucson, Arizona. It provided a stimulating intellectual forum of discussions among previously d- paratecommunities:academicresearchersininformationtechnologies,computer science, public policy, and social studies; local, state, and federal law enfor- ment and intelligence experts; and information technology industry consultants and practitioners. The Routledge Handbook of Second Language Research in Classroom Learning Nov 29 2019 The Routledge Handbook of Second Language Research in Classroom Learning is a comprehensive psycholinguistic approach to the issue of instructed language learning that is uniquely theoretical, methodological, empirical, pedagogical, and curricular. Bringing together empirical studies with theoretical underpinnings, this handbook focuses on conceptual replications/extensions of, and new research on, classroom learning or Instructed SLA (ISLA). In chapters from leading experts, the Handbook reports on the tenets of several models that have postulated the roles of cognitive processes in the L2 learning process and also covers two major methodological data-elicitation procedures to be employed in addressing learner cognitive processes (think-aloud protocols and eye-tracking). With a dedicated interest in the role of this research in pedagogical ramifications, this handbook strives for deeper understanding of how L2 learners process L2 data in instructional settings.

Teaching Digital Natives Dec 23 2021 Students today are growing up in a digital world. These "digital natives" learn in new and different ways, so educators need new approaches to make learning both real and relevant for today's students. Marc Prensky, who first coined the terms "digital natives" and "digital immigrants," presents an intuitive yet highly innovative and field-tested partnership model that promotes 21st-century student learning through technology. Partnership pedagogy is a framework in which: - Digitally literate students specialize in content finding, analysis, and presentation via multiple media - Teachers specialize in guiding student learning, providing questions and context, designing instruction, and assessing quality - Administrators support, organize, and facilitate the process schoolwide - Technology becomes a tool that students use for learning essential skills and "getting things done" With numerous strategies, how-to's, partnering tips, and examples, Teaching Digital Natives is a visionary yet practical book for preparing students to live and work in today's globalized and digitalized world.
