An American Hometown Nov 21 2021 They lived "green" out of necessity -- walking to work, repairing everything from worn shoes to wristwatches, recycling milk bottles and packing containers. Music was largely heard live and most residential streets had shade trees. The nearby Wabash River -- a repeated subject of story and song -- transported Sunday picnickers to public parks. In the form of an old-fashioned city directory, An American Hometown celebrates a bygone American era, focusing on life in 1920s Terre Haute, Indiana. With artfully drawn biographical sketches and generously illustrated histories, noted musician, historian, and storyteller Tom Roznowski not only evokes a beauty worth remembering, but also brings to light just how many of our modern ideas of sustainable living are deeply rooted in the American tradition.

Music, the Moving Image and Ireland, 1897–2017 Oct 01 2022 Music, the Moving Image and Ireland, 1897–2017 constitutes the first comprehensive study of music for screen productions from or relating to the island. It identifies and interprets tendencies over the first 120 years of a field comprising the relatively distinct yet often overlapping areas of Irish-themed and Irish-produced film. Dividing into three parts, the book first explores accompaniments and scores for 20th-century Irish-themed narrative features that resulted in significant contributions by many Hollywood, British, continental European and, to a lesser extent, Irish composers, along with the input of many orchestras and other musicians. Its second part is framed by a consideration of various cultural, political and economic developments in both the Republic of Ireland and Northern Ireland from the 1920s (including the Troubles of 1968–1998). Focusing on scoring and other aspects of soundtrack production for domestic newsreel, documentary film and TV programming, it interprets the substantial output of many Irish composers within this milieu, particularly from the 1960s to the 1990s. Also referring to broader cultural and historical themes, the book's third and final part charts approaches to and developments in music and sound design over various waves of Irish cinema, from its relatively late emergence in the 1970s to an exponential growth and increasingly transnational orientation in the early decades of the 21st century.
