The Puzzle of Ethics Mar 18 2022 First Published in 1994. Is there such a thing as right and wrong? Are some codes of behaviour more justified than others? Is it foolish to believe in moral principles? Is 'virtue' just a quaint Victorian term and does anyone care in any case? **The Puzzle of Ethics** tackles these formidable questions and many more in a clear and easy to understand manner without every becoming superficial. Throughout the approaches of major philosophers are explained and specific issues are addressed, including: Just War theory, situation ethics, abortion, euthanasia, as well as Buddhist, Hindu and Islamic ethics. This challenging book is of considerable relevance, dealing as it does with the central areas of ethical concern in today's world. It is the ideal introduction to the field for students.

Dear Dawn Nov 02 2020 The chilling autobiography of the notorious female serial killer who was recently the subject of a two-hour Investigation Discovery special. Between 1989 and 1990, Aileen Wuornos, a hitchhiking prostitute, shot, killed, and robbed seven men in remote Florida locations. Arrested in 1991, she was condemned to death on six separate counts and executed by lethal injection in 2002. An abused runaway who turned to prostitution to survive, Wuornos has become iconic of vengeful women who lash out at the nearest target. She has also become a touchstone for women's, prostitutes', and prisoners' rights advocates. Her story has inspired myriad books and articles, as well as the 2003 movie *Monster*, for which Charlize Theron won an Academy Award. But until now, Wuornos's uncensored voice has never been heard. **Dear Dawn** is Wuornos's autobiography, culled from her ten-year death row correspondence with beloved childhood friend Dawn Botkins. Authorized for publication by Wuornos and edited under the guidance of Botkins, the letters not only offer Wuornos's riveting reflections on the murders, legal battles, and media coverage, but go further, revealing her fears and obsessions, her rich humor and empathy, and her gradual disintegration as her execution approached. A candid life story told to a trusted friend, **Dear Dawn** is a compelling narrative, unwaveringly true to its source. "It is both empowering and heartbreaking, because Wuornos represents the fury of a wronged girl-gone-wild, whose rage was unleashed on men." -*The Rumpus* "Condenses ten years of obsessive correspondence into a fragmented, sometimes funny, sometimes nightmarish, often paradoxical portrait of Wuornos." -*Muzzle Magazine*

For Better or For Worse? Collaborative Couples in the Sciences Feb 23 2020 In this volume, a distinguished set of international scholars examine the nature of collaboration between life partners in the sciences, with particular attention to the ways in which personal and professional dynamics can foster or inhibit scientific practice. Breaking from traditional gender analyses which focus on divisions of labor and the assignment of credit, the studies scrutinize collaboration as a variable process between partners living in the nineteenth and twentieth centuries who were married and divorced, heterosexual and homosexual, aristocratic and working-class and politically right and left. The contributors analyze cases shaped by their particular geographical locations, ranging from remote settings like the English countryside and Woods Hole, Massachusetts, to university laboratories and urban centers in Berlin, Stockholm, Geneva and London. The volume demonstrates how the terms and meanings of collaboration, variably shaped by disciplinary imperatives, cultural mores, and the agency of the collaborators themselves, illuminate critical intellectual and institutional developments in the modern sciences.

In Strength And Shadow Oct 01 2020 Few rugby players have matched the achievements of Welshman Mervyn Davies, the shrewd, gutsy number 8 with the heart of a lion. In what was a remarkable career, he won two Grand Slams, three Triple Crowns, earned thirty-eight consecutive Wales caps, was captain of his national team and played in two victorious Lions tours. From the tail end of the 1960s through the first half of the glorious '70s period, 'Merv the Swerve' - with that mop of black hair and trademark headband - cut an iconic figure in the world's great rugby arenas. Teammates and opponents respected him, fans loved him and he was a natural leader of men both on and off the field. Then, in March 1976, everything changed. Mervyn was leading Swansea in a semi-final cup clash when he suffered a massive brain haemorrhage. He began that fateful Sunday preparing for just another high-profile game but ended it fighting for his life. Wales, and the watching sporting world, could do nothing but wait and hope. And just when the odds seemed stacked irreversibly against him, Mervyn did what he had always done: he beat them. Mervyn's life story is one of what was and what might have been. From locker-room tales to the loneliness of rehabilitation, Mervyn's account is funny, moving and honest. He writes about his many highs and lows, about losing rugby but regaining his life, and shares his thoughts on the days he spent in shadow and in strength.

Enhancing Food Safety Jan 24 2020 Recent outbreaks of illnesses traced to contaminated sprouts and lettuce illustrate the holes that exist in the system for monitoring problems and preventing foodborne diseases. Although it is not solely responsible for ensuring the safety of the nation's food supply, the U.S. Food and Drug Administration (FDA) oversees monitoring and intervention for 80 percent of the food supply. The U.S. Food and Drug Administration's abilities to discover potential threats to food safety and prevent outbreaks of foodborne illness are hampered by impediments to efficient use of its limited resources and a piecemeal approach to gathering and using information on risks. **Enhancing Food Safety: The Role of the Food and Drug Administration**, a new book from the Institute of Medicine and the National Research Council, responds to a congressional request for recommendations on how to close gaps in FDA's food safety systems. **Enhancing Food Safety** begins with a brief review of the Food Protection Plan (FPP), FDA's food safety philosophy developed in 2007. The lack of sufficient detail and specific strategies in the FPP renders it ineffectual. The book stresses the need for FPP to evolve and be supported by the type of strategic planning described in these pages. It also explores the development and implementation of a stronger, more effective food safety system built on a risk-based approach to food safety management. Conclusions and recommendations include adopting a risk-based decision-making approach to food safety; creating a data surveillance and research infrastructure; integrating federal, state, and local government food safety programs; enhancing efficiency of inspections; and more. Although food safety is the responsibility of everyone, from producers to consumers, the FDA and other regulatory agencies have an essential role. In many instances, the FDA must carry out this responsibility against a backdrop of multiple stakeholder interests, inadequate resources, and competing priorities. Of interest to the food production industry, consumer advocacy groups, health care professionals, and others, **Enhancing Food Safety** provides the FDA and Congress with a course of action that will enable the agency to become more efficient and effective in carrying out its food safety mission in a rapidly changing world.

Every Time a Bell Rings Jan 04 2021 Once upon a time, he was everything to her, except for one thing: her future Christmas sparkles from every bough and window at the cozy Four Winds Ski Resort, where single mother Eden Kendall and her eight-year-old son are spending the holiday. A surprise marriage proposal from her boss's son wasn't on her Christmas list, but it's the perfect excuse to get away and weigh her options. She never imagined her son's ski instructor/Santa impersonator would be the gorgeous, charismatic dreamer she left behind years ago, the one who still owns a piece of her heart. Cole Hagan has never stopped loving Eden and he's spent the last eight years proving her wrong on every count about his potential. While he fights to save the resort that he helped to build by organizing a holiday concert, he decides it's about time that Eden puts aside her list-making pragmatism so that she and her skeptical son can experience the true magic of Christmas. Can a not-so-perfect angel help this unlikely pair get a second chance at happily ever after?

The Fama Portfolio Jun 09 2021 Few scholars have been as influential in finance, both as an academic field and an industry, as Eugene Fama. Since writing his groundbreaking 1970 essay on efficient capital markets, Fama has written over 100 papers and books that have been cited hundreds of thousands of times. Yet there is no one collection where one can easily find his best work in all fields. "The Fama Portfolio" will be an outstanding and unprecedented resource in a field that still concentrates mainly on questions stemming from Fama's work: Is the finance industry too large or too small? Why do people continue to pay active managers so much? What accounts for the monstrous amount of trading? Do high-speed traders help or hurt? The ideas, facts, and empirical methods in Fama's work continue to guide these investigations. "The Fama Portfolio" will be a historic and long-lasting collection of some of the finest work ever produced in finance."

Grandad Mandela Jun 21 2022 "...profoundly moving..." -Publishers Weekly Nelson Mandela's two great-grandchildren ask their grandmother, Mandela's youngest daughter, 15 questions about their grandad - the global icon of peace and forgiveness who spent 27 years in prison. They learn that he was a freedom fighter who put down his weapons for the sake of peace, and who then became the President of South Africa and a Nobel Peace Prize-winner, and realise that they can continue his legacy in the world today. Seen through a child's perspective, and authored jointly by Nelson Mandela's great-grandchildren and daughter, this amazing story is told as never before to celebrate what would have been Nelson's Mandela 100th birthday.

Developing Intelligent Agent Systems May 28 2020 Build your own intelligent agent system... Intelligent agent technology is a tool of modern computer science that can be used to engineer complex computer programmes that behave rationally in dynamic and changing environments. Applications range from small programmes that intelligently search the Web buying and selling goods via electronic commerce, to autonomous space probes. This powerful technology is not widely used, however, as developing intelligent agent software requires high levels of training and skill. The authors of this book have developed and tested a methodology and tools for developing intelligent agent systems. With this methodology (Prometheus) developers can start agent-oriented designs and implementations easily from scratch saving valuable time and resources. Developing Intelligent Agent Systems not only answers the questions "what are agents?" and "why are they useful?" but also the crucial question: "how do I design and build intelligent agent systems?" The book covers everything a practitioner needs to know to begin to effectively use this technology - including an introduction to the notion of agents, a description of the concepts involved, and a software engineering methodology. Read on for: a practical step-by-step introduction to designing and building intelligent agent systems, a full life-cycle methodology for developing intelligent agent systems covering specification, analysis, design and implementation of agents. PDT: Prometheus Design Tool - software support for the Prometheus design process. the example of an electronic bookstore to illustrate the design process throughout the book. Electronic resources including the Prometheus Design Tool (PDT), can be found at: <http://www.cs.rmit.edu.au/agents/prometheus> This book is aimed at industrial software developers, software engineers and at advanced undergraduate students. It assumes knowledge of basic software engineering but does not require knowledge of Artificial Intelligence or of mathematics. Familiarity with Java will help in reading the examples in chapter 10.

Paris in Oakland Apr 07 2021 Every so often, a story of hope makes it's way into a hurting world. Paris in Oakland is that story. Follow Katherine and her mother, Eliza, as they navigate a medical nightmare seeking treatment for Katherine's Lyme disease. Never imagining an illness could be controversial, Katherine and her mother find themselves caught in the middle of a deeply divided medical community. This proves to be dangerous medicine, leaving young Katherine bedridden, in constant pain and ultimately finding for her life in the pediatric intensive care unit. From the pen of documentary filmmaker Eliza Hemenway, Paris in Oakland not only exposes the injustices of Lyme disease, but is also a story of faith and a compelling read for anyone suffering sickness or caught in circumstances beyond their control. If you are seeking inspiration, healing or hope, Paris in Oakland is the book for you.

The Grace Walk Experience Sep 24 2022 For years, Steve McVey's Grace Walk (more than 200,000 copies sold) has inspired Christians to leave behind a performance and fear-based faith to embrace a faith lived in abundance and grace. Now The Grace Walk Experience workbook helps readers move that message of hope from their heads to their hearts as they explore eight truths that have changed lives worldwide daily, interactive studies that reveal grace as much more than a doctrine ways to quit "doing" for God so that He can live through them illustrations of the wonder and miracle of faith as God intended God's Word, salvation, and evangelism with new perspective This excellent tool for church classes, small group discussion, and individual study will lead believers to understand their identity in Christ, let go of legalism, and make room for the overflowing love, mercy, and purpose of life lived wholly in God's grace.

Africa's Greatest Entrepreneurs Feb 05 2021 Who are the real power brokers in Africa? Who are the dynamic entrepreneurs making things happen on the continent? How did they do it and what are their personal stories? Africa's Greatest Entrepreneurs is a unique collection of stories about 16 of the most successful entrepreneurs and business visionaries currently operating in Africa. Each chapter is dedicated to a single entrepreneur and focuses on a sometimes tumultuous, often challenging, but mostly exciting journey to success. This fascinating and well-researched book examines the life of each entrepreneur and maps out the path each elected to follow in tackling and overcoming the obstacles that stood in the way of the realisation of their dreams. Meet, among others, Kagiso Mmusi, the Mopona transport millionaire; Richard Mponya, the South African retail giant behind Soweto's Mponya Mall; Kwabena Adjei, the rags-to-riches Ghanaian millionaire; Wale Tinubu, the Nigerian head of the Oando oil and gas giant; Ndaba Ntsele, the South African king of high finance; and Mo Ibrahim, the Sudanese-born telecoms millionaire. Each story is inspiring and informative in its own unique way. Makura sheds light on the different historical, political and economic power structures that helped create - and in some cases frustrate - these business heroes. The book shines the spotlight on and provides an unprecedented insight into a new breed of African hero - some of whose stories have never been told until now.

The Book of L Sep 12 2021 This book is dedicated to Aristed Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristed Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been called L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Rosh Rapid Review: General Surgery Rotation Exam May 08 2021 This is book 2 of 7 of the Rapid Review for the Rotation Exam series. Developed by the same Rosh Review team who brought you the popular Rosh Review Qbank. The Rapid Review for the General Surgery Rotation Exam details every national content blueprint topic into a "what you need to know" for your General Surgery Rotation Exam. This book provides a high-yield review of the pathophysiology, diagnosis, lab analysis, treatments and more. Includes beautifully designed color teaching images for visual learners. Organized so you can add your own notes. Easy to take with you to class, a cafe, or library. The content in the Rapid Review book series is different from the content in the Rosh Qbank. Nonetheless, the Rapid Review book series serves as a perfect companion to the Rosh Qbank. Learning and education is a dynamic process, one that is never ending. Once we commit to a life in medicine, we commit to a life of learning. The Rosh Rapid Review book series is best suited to serve as an adjunct to your medical education. It is not meant as a primary source, rather it should help you organize your thoughts and provide ancillary knowledge for a more robust education. We are counting on you to not just regurgitate facts, but rather, paraphrasing Dr. Elizabeth Blackburn, to learn how it all works. We are privileged to be in the role of caretaker and thus have a responsibility to our patients to be the most knowledgeable we can be. Use this book on your learning journey. At some point, you will grow out of it. But in the meantime, we hope the hard work by the dedicated Rosh Review team can play just a small role in helping you reach your goals and achieve your dreams.
