*Solitaire Spirit* Aug 28 2019 Les Powles only had 8 hours of sailing experience when he decided to sail solo around the world. Many novices would be content to just dream of such an adventure, and maybe get as far as a solo Channel crossing a couple of years down the line. Not so Les Powles, one of the twentieth century's most extraordinary and eccentric sailors. Les was in his 50s when he built himself a yacht with little prior knowledge of boatbuilding. Remarkably he made it across the Atlantic, though his navigation skills didn't match his boatbuilding abilities; his first landfall was Brazil. He'd been aiming for Barbados - 100 miles north, and in a different hemisphere! Three complete solo circumnavigations followed, all of them full of incident. The last one saw him given up for dead when he hadn't been heard from for four months. His boat had been damaged in a storm, he'd lost all communications and had virtually run out of food. When he sailed up the Lymington River (aged 70) in a skeletal state his arrival caused a media frenzy. Lymington Yacht Haven subsequently gave him a free berth for life. A terrific achiever who has beaten the odds, Les Powles tells his story in a lively, entertaining, humorous and compelling way. It will resonate with sailors and non sailors alike, and may inspire one of them to become the twenty-first century's Les Powles.

**Solitaire for Complete Beginners** Feb 24 2022 Solitaire or Klondike Solitaire, 1-Card Draw, has been played for the last couple of centuries with playing cards (just for a little historical perspective). This particular game is so popular that it's often just called Solitaire. After the seven columns of the array are laid out, make all the moves or plays available among the columns and to the Ace piles (also called the foundations or Ace stacks). Then, holding the rest of the cards, called the hand (or stock), face down, make the first pass through them; take one from the top and turn it over for play. If it can't be put either on one of the Ace piles, or on one of the seven columns, put it face up on the waste pile (also called the talon). Continue to the next card in the hand, and play it if you can, or place it on the waste pile face up. Also make other moves as they become available among the seven columns. After going through the whole hand in this manner, turn the waste pile over; it then becomes the hand again. Continue this cycle of making passes through the hand, and playing cards to either the columns or the Ace piles, until no more moves can be made. The game is won if all the cards get moved up to their Ace piles. Get your copy today by scrolling up and clicking Buy Now to get your copy today
