The Routledge Companion to Women in Architecture Sep 07 2020 The Routledge Companion to Women in Architecture illuminates the names of pioneering women who over time continue to foster, shape, and build cultural, spiritual, and physical environments in diverse regions around the globe. It uncovers the remarkable evolution of women's leadership, professional perspectives, craftsmanship, and scholarship in architecture from the preindustrial age to the present. The book is organized chronologically in five parts, outlining the stages of women's expanding engagement, leadership, and contributions to architecture through the centuries. It contains twenty-nine chapters written by thirty-three recognized scholars committed to probing broader topographies across time and place and presenting portraits of practicing architects, leaders, teachers, writers, critics, and other kinds of professionals in the built environment. The intertwined research sets out debates, questions, and projects around women in architecture, stimulates broader studies and discussions in emerging areas, and becomes a catalyst for academic programs and future publications on the subject. The novelty of this volume is in presenting not only a collection of case studies but in broadening the discipline by advancing an incisive overview of the topic as a whole. It is an invaluable resource for architectural historians, academics, students, and professionals.

Midnight Jewel Sep 27 2019 A NEW YORK TIMES BEST SELLER The Selection meets Reign in this dazzling trilogy of interwoven novels about three girls on a quest for freedom and true love from #1 internationally bestselling author Richelle Mead. Mira is not like the other Glittering Court girls. She is a war refugee, cast out of her home country and thrust into another, where she has learned to fight against the many injustices around her. For some, the Glittering Court offers a chance at a life they've only ever dreamed of, one of luxury, glamour, and leisure. But for Mira, it's simply a means to an end. In the new world, she plans to earn off her marriage contract price, and finally be free. Mira pitches herself as an asset to one of the passengers on board the ship: the sardonic and aloof Grant Elliot, whom she's discovered is a spy for the prestigious McGraw Agency—and her ticket to buying her freedom. His cover blown, Grant has little choice but to take her on. Mira applies herself by day, learning the etiquette and customs that will help to earn her anonymity. By night, she dons a mask and slips into the city, fighting injustice and corruption on her own terms—and impressing Grant with her extraordinary abilities and insights into a brewing rebellion. But the rebellion isn't all they're fighting... Neither of them can ignore the attraction burning between them—an attraction so powerful, it threatens to unravel everything Mira's worked so hard for. With freedom finally within her grasp, can Mira risk it all for love?

Norms of Word Association Oct 09 2020 Norms of Word Association contains a heterogeneous collection of word association norms. This book brings together nine sets of association norms that were collected independently at different times during a 15-year period. Each chapter is a self-contained unit. The order in which the norms are presented is arbitrary, although an attempt is made to group together norms that seem to belong together. The 1952 Minnesota norms are presented first, due to "age" and in recognition of the fact that a number of the norms that follow are direct outgrowths of this work. The next three norms in this collection are responses to the Russell-Jenkins stimuli obtained from subjects representing different linguistic communities. A summary of association norms collected from British and Australian subjects are reported along with association norms from German and French college students and French workmen. Four sets of norms that are not directly related to the 1952 Minnesota collection are included. The text will be of interest to historians and researchers in the field of verbal learning and verbal behavior.

Hollowed Out Dec 23 2021 Do teachers have a front row seat to America's decline?

Jeremy S. Adams, a teacher at both the high school and college levels, thinks so. Adams has spent decades trying to instill wisdom, ambition, and a love of learning in his students. And yet, as he notes, when teachers get together, they often share an arresting conclusion: Something has gone terribly wrong. Something essential is missing in our young people. Their curiosity seems stunted, their reason undeveloped, their values uninformed, their knowledge lacking, and most worrying of all, their humanity diminished. Digital hermits of a sort unfamiliar to an older generation, they have little interest in marriage and family. They largely dismiss—and are shockingly ignorant of—religion. They sneer at patriotism, sympathize with riots and vandalism, and regard American society and civilization as so radically flawed that it must be dismantled. Often friendless and depressed, they eat alone, study alone, and even “socialize” alone. Educators like Adams see a generation slipping away. The problems that have hollowed out our young people have been festering for years. A year of COVID-19 lockdowns and social distancing have magnified them. The result could be a generation—and our nation's future—lost in a miasma of alienation and stupefaction. In his stunning new book, *Hollowed Out*, Jeremy S. Adams reveals why students have rejected the wisdom, culture, and institutions of Western civilization—and what we can do to win them back. Poignant, frightening, and yet inspiring, this is a book for every parent, teacher, and patriot concerned for our young people and our country
