The Winter Ghosts Oct 08 2020 From the New York Times bestselling author of Sepulchre and Labyrinth—a compelling story of love, ghosts and remembrance. World War I robbed England and France of an entire generation of friends, lovers and futures. In Freddie Watson's case, the battlefields took his beloved brother and, at times, his peace of mind. In 1928, still seeking some kind of resolution, Freddie is travelling through the beautiful but forbidding French Pyrenees. During a snowstorm, his car spins off the mountain road. Freezing and dazed, he stumbles through the woods, ending up in a tiny village, where he finds an inn to wait out the blizzard. There he meets Fabrissa, a lovely young woman also from a lost generation. Over the course of one night, Fabrissa and Freddie share their stories. By the time dawn breaks, they have unearthed a tragic mystery that goes back through the centuries, and discovered his own role in the life of a remote town. By turns thrilling, poignant, and haunting, this is a story of two lives touched by war and transformed by courage.

Radar Instruction Manual Feb 21 2022 Since 1958 the Maritime Administration has continuously conducted instruction in the use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three regional training centers. Soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardized instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and a reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs
