Just Ask! Oct 09 2020 Justice Sonia Sotomayor and award-winning artist Rafael Lopez create a kind and caring book about the differences that make each of us unique. A #1 New York Times bestseller! Winner of the Schneider Family Book Award! Feeling different, especially as a kid, can be tough. But in the same way that different types of plants and flowers make a garden more beautiful and enjoyable, different types of people make our world more vibrant and wonderful. In *Just Ask*, United States Supreme Court Justice Sonia Sotomayor celebrates the different abilities kids (and people of all ages) have. Using her own experience as a child who was diagnosed with diabetes, Justice Sotomayor writes about children with all sorts of challenges--and looks at the special powers those kids have as well. As the kids work together to build a community garden, asking questions of each other along the way, this book encourages readers to do the same: When we come across someone who is different from us but we're not sure why, all we have to do is Just Ask. Praise for *Just Ask*: * "Addressing topics too often ignored, this picture book presents information in a direct and wonderfully child-friendly way." --Booklist, *STARRED REVIEW* "An affirmative, delightfully diverse overview of disabilities." --Kirkus Reviews "A hopeful and sunny exploration of the many things that make us unique [with] dynamic and vibrant illustrations [that] emphasize each character's unique abilities. . . . A thoughtful and empathetic story of inclusion." --SLJ

Teachers' Guide to Child Development Feb 22 2022

Lessons Learned: Nov 02 2022 There is something absolutely magical about a child who is embarking on the amazing journey called kindergarten. They are so innocent, pure, and impressionable. They are at an incredible stage in their lives--so young, yet so very ready. This book was written as a gift to parents whose children are at this wonderful stage. My intention is to share with you every insight that I have gained as a mother and as a teacher. Whether this is your first child going into kindergarten or your last child--even if you've had a gap in time where you haven't been in a kindergarten classroom for a while--this book is for you. Enjoy!

Counting Down to Kindergarten Aug 19 2021 The public library is in the perfect position as a community resource to help bridge the gap between preschool and kindergarten; however, starting from scratch can feel daunting. In this guide, Baker combines her background in early childhood education with her experience as a youth services programming specialist to present a school readiness program that can be tailored for any public library.

Based on the successful framework of her tried and tested

original program, this book offers everything that a public library needs in order to get started, including A six-week schedule of detailed lesson plans which combine the best practices of the Every Child Ready to Read(r) (ECRR) Second Edition (talking, singing, reading, writing, playing) with nationally identified school readiness skills A six-month family calendar with activities to help parents engage their children in activities that foster early literacy and school readiness skills at home Tips for maintaining a collaborative relationship with early childhood stakeholders and policymakers to help maintain a program that fits the school readiness needs of the local community Specific examples of successful school readiness programs and partnerships from public library systems across the country Baker's guide will help public libraries ensure that young children are ready for school from day one.

The Kindergarten Survival Handbook Mar 14 2021 Written to help parents understand what their children need to know before they start kindergarten, this volume, bound separately in English and Spanish, is intended to help parents become their children's best, as well as their first and most important, teachers. The first part of the book, the before school checklist, is divided into eight sections, each about different skills children need to know. The eight sections are: (1) things they need to know (the basics); (2) understanding and being understood; (3) self-help and social skills; (4) large movement skills; (5) small movement skills; (6) using all their senses; (7) recognizing pictures; and (8) words and letters. The second part of the book, a guide for parents, shows parents how to help their children learn the things they need to know. This part is also divided into eight sections that show simple things parents can do at home, or anywhere, without special equipment or materials, on a daily basis. Following an introduction that offers parents general guidelines for helping their children, the guide covers the skills listed in the before school checklist in eight sections. A final section discusses why

the parent is always the most important person in a child's education. (TJQ)
