*Call Me Debbie* Jul 06 2020 Internationally beloved opera star Deborah Voigt recounts her harrowing and ultimately successful private battles to overcome the addictions and self-destructive tendencies that nearly destroyed her life. *Call Me Debbie* is one of the most electrifying performances of Deborah Voigt's life. The brilliantly gifted opera soprano takes us behind the velvet curtains to tell her compelling story—a tale of success, addiction, music, and faith as dramatic as any role she has performed. For the first time, she talks about the events that led to her dangerous gastric bypass surgery in 2004 and its shocking aftermath: her substantial weight loss coupled with the “cross addiction” that led to severe alcoholism, frightening all-night blackouts, and suicide attempts. Ultimately, Voigt emerged from the darkness to achieve complete sobriety, thanks to a twelve-step program and a recommitment to her Christian faith. Colored by hilarious anecdotes and juicy gossip that illuminate what really goes on backstage, Voigt paints diverting portraits of the artists with whom she's worked, her most memorable moments onstage, and her secrets to great singing. She also offers fascinating insight into the roles she's played and the characters she loves, including Strauss's *Ariadne and Salome*, Puccini's *Minnie*, and Wagner's *Sieglinde, Isolde, and Brünnhilde*, sharing her intense preparation for playing them. Filled with eight pages of color photos, *Call Me Debbie* is an inspirational story that offers a unique look into the life of a modern artist and a remarkable woman.

*The Book of L* Jul 30 2022 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Kasher in the Rye Aug 07 2020 Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But KASHER IN THE RYE is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland , California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control-his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

**Wake Up, Woods** Sep 07 2020 Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. Wake Up, Woods showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of Wake Up, Woods will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

**One Last Lunch** Jan 12 2021 In this heartwarming essay collection, dozens of authors, actors, artists and others imagine one last lunch with someone they cherished. A few years ago, Erica Heller realized how universal the longing is for one more moment with a lost loved one. It could be a parent, a sibling, a mentor, or a friend, but who wouldn't love the opportunity to sit down, break bread, and just talk? Who wouldn't jump at the chance to ask those unasked questions, or share those unvoiced feelings? In *One Last Lunch*, Heller has asked friends and family of authors, artists, musicians, comedians, actors, and others, to recount one such fantastic repast. Muffie Meyer and her documentary subject Little Edie Beale go to a deli in Montreal. Kirk Douglas asks his father what he thought of him becoming an actor. Sara Moulton dines with her friend Julia Child. The Anglican priest George Pitcher has lunch with Jesus. And Heller herself connects with her father, the renowned author Joseph Heller. These richly imagined stories are endlessly revealing, about the subject, the writer, the passage of time, regret, gratitude, and the power of enduring love.

**The Little Typer** Nov 21 2021 An introduction to dependent types, demonstrating the most beautiful aspects, one step at a time. A program's type describes its behavior. programs they describe. The Little Typer explains dependent types, beginning with a very small language that looks very much like Scheme and extending it to cover both programming with dependent types and using dependent types for mathematical reasoning. Readers should be familiar with the basics of a Lisp-like programming language, as presented in the first four chapters of The Little Schemer. The first five chapters of The Little Typer provide the needed tools to understand dependent types; the remaining chapters use these tools to build a bridge between mathematics and programming. Readers will learn that tools they know from programming—pairs, lists, functions, and recursion—can also capture patterns of reasoning. The Little Typer does not attempt to teach either practical programming skills or a fully rigorous approach to types. Instead, it demonstrates the most beautiful aspects as simply as possible, one step at a time.

With more positive spirits like Janey, the world would be a better place.' - Ben Fogle In 2014 and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home.
