The iPad iOS 9 Quick Starter Guide Oct 23 2021 If you believe some news stories, the latest iPad update (iOS 9) is radically different and you should beware of updating! They're wrong! This book is for both new users of iPad and those upgrading to the latest update. I'll walk you through the changes and show you why updating is nothing to be afraid of. The iPad doesn't come with a handbook / user guide, but don't believe other handbooks that tell you that's why you need to buy their handbook! iPad does have a handbook! So why do you need this book? This book was written for my parents; people who needed to know as much as possible, as quickly as possible. There are people who want to know every single little detail about the iPad, and you will find that in Apple's comprehensive manual; but if you are like my parents—new to the iPad and just want to learn all the basics in about 30 minutes or an hour, then this guide will help you—people who just want to know how to add their contacts, take photos, and email. It's not for advance users, although if you are upgrading from the previous Apple iOS (iOS 8) you will probably find it useful. If you are ready to learn, then read on!

Keynote for iPad & iPad Pro (Vole Guides) Dec 25 2021 This handy guide covers all of Keynote for iOS, Apple's chart-topping presentation app tuned to work with your iPad, iPhone, and iPod touch. If you're coming from Keynote for Mac or Microsoft PowerPoint, you'll find all the steps needed to transfer your presentations and make a painless transition from point-and-click to tap-and-drag. - Use just your fingers to create presentations with text, lists, tables, charts, graphics, and media. - Create presentations and slides based on Apple's professionally designed themes or your own custom themes. - Store presentations in iCloud or third-party cloud locations such as Dropbox or Google Drive. - Use Handoff to pass presentations seamlessly between your Mac, iPhone, iPad, and iPod touch. - View or restore earlier versions of your presentations. - Organize your presentations into folders. - Restrict access to your presentations by password-protecting them. - Use the slide navigator to skim through your presentation and manage slides. - Reorder slides individually or in groups. - Show or hide slide numbers. - Skip slides that you don't want to show. - Zoom slides for detail work. - Print presentations wirelessly from an AirPrint-capable printer. - Edit and format text and use the built-in editing tools. - Add comments and highlights to your work. - Use paragraph and character styles to maintain a

consistent look. - Create bulleted, lettered, or numbered lists. - Embellish your presentations with photos, videos, text boxes, arrows, lines, and shapes. - Add a soundtrack to your presentation. - Organize, format, and sort text or numbers in tables. - Chart your data to show trends and relationships. - Enliven your presentations with animations and special effects. - Play a presentation on your iPad or stream it to an external display or projector. - Drag your finger to simulate a laser pointer. - Use Keynote Remote to control presentation playback from your iPad, iPhone, or iPod touch. - Add presenter notes to any slide to remind you what to say. - Create autoplay slideshows and viewer-guided slideshows for kiosks. - Export Keynote, PowerPoint, or PDF files. - Import Keynote or PowerPoint files. - Send copies of presentations via email, Messages, or AirDrop. - Transfer presentations via remote server. - Use iCloud to store, share, sync, or collaborate on presentations online. - Plenty of tips, tricks, and timesavers. - Fully cross-referenced, linked, and searchable. The Complete Beginners Guide to Pages for the iPhone and iPad Jul 20 2021 Word processing used to be synonymous with Microsoft Word; times have changed a lot over the years, and today there are plenty of options. On Apple products there is notably Pages—a simple, yet powerful word processing software that creates beautiful documents: from reports and newsletters to posters and fliers. If you are already familiar with Microsoft Word, then you'll have no problem getting started because it shares many of the same features. But there's still a lot of features to get to know if you want to get the most from the software. If you want to create professional documents from your iPad then this book will show you how. It also includes short exercises so you aren't just learning about the features, you are getting hands-on with them. While screenshots come from the iPad, Pages works almost exactly the same for iPhone, so you'll have no problem using Pages on any device that Pages is installed on.
