The Road Not Taken: Edward Lansdale and the American Tragedy in Vietnam Mar 14 2021 Finalist for the Pulitzer Prize (Biography) A New York Times bestseller, this " epic and elegant " biography (Wall Street Journal) profoundly recasts our understanding of the Vietnam War. Praised as a " superb scholarly achievement " (Foreign Policy), The Road Not Taken confirms Max Boot ' s role as a " master chronicler " (Washington Times) of American military affairs. Through dozens of interviews and never-before-seen documents, Boot rescues Edward Lansdale (1908 – 1987) from historical ignominy to " restore a sense of proportion " to this " political Svengali, or ' Lawrence of Asia ' " (The New Yorker). Boot demonstrates how Lansdale, the man said to be the fictional model for Graham Greene ' s The Quiet American, pioneered a " hearts and minds " diplomacy, first in the Philippines and then in Vietnam. Bringing a tragic complexity to Lansdale and a nuanced analysis to his visionary foreign policy, Boot suggests Vietnam could have been different had we only listened. With contemporary reverberations in Iraq, Afghanistan, and Syria, The Road Not Taken is a " judicious and absorbing " (New York Times Book Review) biography of lasting historical consequence.

Manual of Instruction for the Volunteers and Militia of the State of Texas Jun 28 2022 Excerpt from

Manual of Instruction for the Volunteers and Militia of the State of Texas: Taken From Gilham's Manual of Instruction for the Volunteers and Militia of the United States The object of this School is the individual instruction of the soldier; it should be taught with the greatest possible care and precision, as on it depends the efficiency of the instruction of the company, which is again so necessary to that of the battalion, and from that of the battalion to the evolutions of the line, where an entire army is manoeuvred with as much precision as a single company. The instructor should never require a movement to be executed until he has fully explained it, and joined example to precept by performing the movement in person. He should accustom the soldier to take for himself the position required, correcting him when necessary, and should labor to prevent the formation of a habit of carelessness in the execution of the movements.
