Writing an Academic Paper in English Jul 29 2022 This book is for university students, with at least a mid-intermediate level of English. It can be used as part of an English for Academic Purposes

(EAP) course, either alone or with the companion volume Giving an Academic Presentation in English. The chapters are independent so that EAP teachers and students can choose those sections that best fit their needs. This means that a course can range from a minimum of 20 hours, up to 60 hours or more. There is an introductory chapter that includes what role academics play in today's world, where success is not just measured in terms of paper output but also involvement in interdisciplinary projects and supporting society at large. Each chapter covers a particular section of a paper (Abstract, Introduction, Methods etc) and begins with a

discussion exercise on what the exact purpose of each section is. This purpose is also highlighted by comparisons with non-academic situations where similar skills are required. There are many examples and templates - none of which are lengthy or complex - but which are designed to highlight key points. Students learn what style to adopt (we vs impersonal), the correct tenses to use in each section, typical mistakes, and useful phrases. The course is highly practical and is also designed to be fun to use. Other books in the series: Giving an Academic Presentation in English Essential English Grammar and

Changing English Nov 28 2019 This book examines the special nature of English both as a global and a local language, focusing on some of the ongoing changes and on the emerging new structural and discursal characteristics of varieties of English. Although it is widely recognised that

processes of language change and contact bear affinities, for example, to processes observable in second-language acquisition and lingua franca use, the research into these fields has so far not been sufficiently brought into contact with each other. The articles in this volume set out to combine all these perspectives in ways that give us a better understanding of the changing nature of English in the modern world.
