Bombs Away Jan 04 2021 In his acclaimed novels of alternate history, Harry Turtledove has scrutinized the twisted soul of the twentieth century, from the forces that set World War I in motion to the rise of fascism in the decades that followed. Now, this masterly storyteller turns his eyes to the aftermath of World War II and asks: In an era of nuclear posturing, what if the Cold War had suddenly turned hot? *Bombs Away* begins with President Harry Truman in desperate consultation with General Douglas MacArthur, whose control of the ground war in Korea has slipped disastrously away. MacArthur recognizes a stark reality: The U.S. military has been cut to the bone after victory over the Nazis—while China and the USSR have built up their forces. The only way to stop the Communist surge into the Korean Peninsula and save thousands of American lives is through a nuclear attack. MacArthur advocates a strike on Chinese targets in Manchuria. In actual history, Truman rejected his general's advice; here, he does not. The miscalculation turns into a disaster when Truman fails to foresee Russia's reaction. Almost instantly, Stalin strikes U.S. allies in Europe and Great Britain. As the shock waves settle, the two superpowers are caught in a horrifying face-off. Will they attack each other directly with nuclear weapons? What countries will be caught in between? The fateful global drama plays out through the experiences of ordinary people—from a British barmaid to a Ukrainian war veteran to a desperate American soldier alone behind enemy lines in Korea. For them, as well as Truman, Mao, and Stalin, the whole world has become a battleground. Strategic strikes lead to massive movements of ground troops. Cities are destroyed, economies ravaged. And on a planet under siege, the sounds and sights of nuclear bombs become a grim harbinger of a new reality: the struggle to survive man's greatest madness. Praise for *Bombs Away* "A fascinating and compelling story of real people caught in forces beyond their control . . . [Harry Turtledove is] the unrivaled monarch of alternate history."—Analog "Turtledove is an undisputed centerpiece of the alternate-history genre, and now, to his already grand display, he's adding the ambitious tale of a WWII that could have happened."—Booklist "This is Turtledove at his best."—SFRevu "Alternate-world warrior extraordinaire Turtledove delivers the opening barrage of a new speculative conflict."—Kirkus Reviews

Broken Lands Apr 19 2022 New York Times bestselling author Jonathan Maberry returns to the world of *Rot & Ruin* with this first novel in a series that's more thrilling and filled with exceptionally terrifying

Meanwhile, Benny Imura and his gang set out on a journey to finish what Captain Joe Ledger started: they're going to find a cure. After what they went through in the *Rot & Ruin*, they think they've seen it all, but as they venture into new and unexplored territory, they soon learn that the zombies they fought before were nothing compared to what they'll face in the wild beyond the peace and safety of their fortified town.

An insane escaped serial killer is infecting Stebbins County with a deadly virus, and now the whole world is watching while Fox, Trout, and the remaining inhabitants of Stebbins fight for their life against...what? The undead? The President and the National Guard are ready to nuke Stebbins, PA off the map and cut their losses. But the infection is spreading and fast. Worse, the scientist who created the virus is missing. It's a numbers game as the body count rises; Fox has to contain the infected and evacuate the living before it's too late, and the clock is ticking... *Fall of Night*, Maberry's nail-biting sequel to *Dead of Night*, picks up where the first novel left off—on a wild goose chase for a madman and the missing scientist who gave him new "un"-life. A Student of History Jun 16 2019 "Revoyr is gifted in her ability to deal with complex ideas like racism, class conflict, and sexuality without sacrificing the truth of her narrative. Furthermore, like the most adroit novelists, Revoyr specializes in reversal. All of her books are filled with suspense and sudden surprises that take the stories in unexpected directions...As much as Nina Revoyr herself is a student of history, she's also one of our best teachers." --Los Angeles Review of Books "Revoyr's latest noir tells a story that's somewhere between Sunset Boulevard and the darker regions of *The Great Gatsby*...Revoyr is a subtle observer of human foibles and social structures, and the result is one of the most insightful, and the most entertaining books of the year." --Literary Hub, one of Lit Hub's 50 Favorite Books of 2019 "A Student of History is full of research, detail, lush descriptions, and visual place-setting. [Revoyr's] a fiction writer with an eye for reality set in a dream-like world, often in her home city of Los Angeles." --The Rumpus "Any Nina Revoyr novel is a cause for celebration, and her latest, *A Student of History*, is assured and marvelous, an absorbing rags among riches tale about a broke USC grad student who finds himself swept off his feet by Los Angeles's insular, powerful .01% class. It's a contemporary novel that feels like an instant classic, with the wry tragedy of *The House of Mirth*, the sinister glamour of *Sunset Boulevard*, and a fresh, original point of view." --CrimeReads "With a nod to *Great Expectations* and *The Great Gatsby*, Rick Nagano is Nick Carraway and young Pip rolled into one...Lambda Award–winner Revoyr focuses on the impact of race in the construct of class and society, and how there are some doors that will always remain closed." --The Advocate "Nina Revoyr's new novel, *A Student of History*, continues the tradition of the Los Angeles oil novel, but steers it in a new direction." --Rain Taxi Review of Books "With her two Walter Mosley-like gifts--impeccable narrative pacing and masterful command of Los Angeles' intricate, evolving dynamics of race and class--Nina Revoyr's LA novels convincingly capture the lifespan of Los Angeles as a major city, none more gracefully than *A Student of History*." --New York Journal of Books Rick Nagano is a graduate student in the history department at USC, struggling to make rent on his South Los Angeles apartment near the neighborhood where his family once lived. When he lands a job as a research assistant for the elderly Mrs. W--, the heir to an oil fortune, he sees it at first simply as a source of extra cash. But as he grows closer to the iconoclastic, charming, and feisty Mrs. W--, he gets drawn into a world of privilege and wealth far different from his racially mixed, blue-collar beginnings. Putting aside his half-finished dissertation, Rick sets up office in Mrs. W--'s grand Bel Air mansion and begins to transcribe her journals--which document an old Los Angeles not described in his history books. He also accompanies Mrs. W-- to venues frequented by the descendants of the land and oil barons who built the city. One evening, at an event, he meets Fiona Morgan--the elegant scion of an old steel family--who takes an interest in his studies. Irresistibly drawn to Fiona, he agrees to help her with a project of questionable merit in the hopes he'll win her favor. *A Student of History* explores both the beginnings of Los Angeles and the present-day dynamics of race and class. It offers a window into the usually hidden world of high society, and the influence of historic families on current events. Like *Great*

Expectations and *The Great Gatsby*, it features, in Rick Nagano, a young man of modest means who is navigating a world where he doesn't belong.

The Grimm Conclusion Jul 10 2021 From Newbery Honor-winning, New York Times bestselling author Adam Gidwitz Cover may vary Did you know that Cinderella’s stepsisters got their eyes pecked out by birds? Really. And that Rumpelstiltskin ripped himself in half? And that in “The Mouse, the Bird, and the Sausage,” a mouse, a bird, and a sausage all talk to each other? (Okay, I guess that one’s not that grim.) Those are the real fairy tales. But they have nothing on the fairy tales in this book. For more twisted tales look for *A Tale Dark and Grimm* and *In a Glass Grimly*. * “Underneath the gore, the wit, and the trips to Hell and back, this book makes it clearer than ever that Gidwitz truly cares about the kids he writes for.” —Publishers Weekly starred review “Entertaining story-mongering, with traditional and original tropes artfully intertwined.”—Kirkus Reviews “As innovative as they are traditional, the stories maintain clear connections with traditional Grimm tales while creatively connecting to the narrative, and all the while keeping the proceedings undeniably grisly and lurid. . . . Readers will rejoice.”—School Library Journal

Graphene Quantum Dots Dec 03 2020 This book reflects the current status of theoretical and experimental research of graphene based nanostructures, in particular quantum dots, at a level accessible to young researchers, graduate students, experimentalists and theorists. It presents the current state of research of graphene quantum dots, a single or few monolayer thick islands of graphene. It introduces the reader to the electronic and optical properties of graphite, intercalated graphite and graphene, including Dirac fermions, Berry's phase associated with sublattices and valley degeneracy, covers single particle properties of graphene quantum dots, electron-electron interaction, magnetic properties and optical properties of gated graphene nanostructures. The electronic, optical and magnetic properties of the graphene quantum dots as a function of size, shape, type of edge and carrier density are considered. Special attention is paid to the understanding of edges and the emergence of edge states for zigzag edges. Atomistic tight binding and effective mass approaches to single particle calculations are performed. Furthermore, the theoretical and numerical treatment of electron-electron interactions at the mean-field, HF, DFT and configuration-interaction level is described in detail.

Flesh and Bone Mar 06 2021 The perfect read for fans of *The Walking Dead*, from an award-winning author. In the land of the dead, four friends search for the key to life... Still reeling from the terror and tragedy that has followed them across the Rot and Ruin, Benny, Nix, Lilah and Chong search for the jet they saw in the skies months ago.
